UNIVERSIDADE FEDERAL DO PARANÁ
PROGRAMA DE PÓS-GRADUAÇÃO EM POLÍTICAS PÚBLICAS

**TÓPICOS ESPECIAIS DE POLÍTICAS PÚBLICAS I:
RESEARCH CLINIC: GROUNDED THEORY FOR BEGINNERS
(TEORIA FUNDAMENTADA EM DADOS PARA INICIANTES)**

Docentes:

Peter Stegmaier (Universidade de Twente)

Carolina Bagattolli (PPPP-UFPR)

Noela Invernizzi (PPPP-UFPR)

Número de créditos: 01

EMENTA

Two uses can be associated with the grounded theory approach: first, the generation of categories and concepts closely based on the subject-matter of research; second, the research process closely related to the subject of research. In this course we focus largely on theory building.

The Grounded Theory for Beginners workshop aims to teach the basics and rules as well as useful practical tips of systematically opening up data and developing grounded category systems. The main emphasis is on practical work with data. Different uses of the approach will be explained and discussed against the background of different research objectives. We also assume that grounded theory work requires hermeneutic methods in order to interpret the data appropriately and to substantiate the category systems that emerge. Working in a team is also discussed.

The workshop is aimed both at beginners who are looking for orientation in the broad field of qualitative social research and at advanced researchers who want to deepen and develop their methodological knowledge on the grounded theory approach more specifically.

Workshop goals:

- Participants learn to think in terms of a basic grounded theory approach and to apply it independently in the project process.
- The participants will learn how to prepare the material to be interpreted within the framework of their own research projects (qualification thesis or professional research) and how to interpret it in a way that is appropriate to the subject matter.

Basic knowledge of (qualitative) empirical social research is desirable. You can bring documents that are currently the focus of your analysis work in a digital format to the workshop. The workshop sessions are spread over a period of two weeks to give you time to try out the findings and discuss the experiences and other practicalities directly in the workshop.

The four sessions comprise the following aspects:

MINISTÉRIO DA EDUCAÇÃO
UNIVERSIDADE FEDERAL DO PARANÁ
PROGRAMA DE PÓS-GRADUAÇÃO EM POLÍTICAS PÚBLICAS

- Session One (23/10): Foundations of explorative and grounded research; data interpretation; situating your research topics
- Session Two (25/10): Open analysis; hands-on exercises
- Session Three (30/10): Discussion of your open analysis experiences; axial analysis
- Session Four (01/11): Selective analysis; creating results; neighbouring approach.

The number of participants is limited to 10 to ensure enough individual participation.

The workshop will be conducted in English.

CRONOGRAMA

As aulas ocorrerão de forma presencial, às **segundas e quartas-feiras, das 14h às 17h30 entre 23/10/23 e 01/11/23** nas dependências do Programa de Pós-Graduação em Políticas Públicas (PPPP).

COMUNICAÇÃO

A comunicação entre discentes e docentes e disponibilização de material será realizada exclusivamente por meio do espaço virtual de aprendizado baseado na **Plataforma Moodle**. Toda a bibliografia utilizada na disciplina estará disponível na nossa biblioteca virtual, no mesmo endereço.
